

Anskaria Phillips

Branch Manager - Windsor & Maidenhead

Meet Anskaria, your Branch Manager for Windsor

About me

Hello, I'm Anskaria. I've worked in adult social care for around 15 years and have worked with a number of companies in several roles. The way we deliver our care is critically important – we always strive to deliver the level of care that we would expect to have for our own relatives or friends. That's the standard I aim to set here at the Windsor office.

My experience and expertise

I'm currently working towards a BA in Health & Social Care and already hold a Level 5 Diploma in Health & Social Care.

During my career, I've seen all different sides of the care process, from working as a field care supervisor, senior coordinator and a branch manager with another provider. As well as these roles, I've also been a carer myself, which means that I have a lot of knowledge that I can share with my own team of carers and help them develop.

I was brought up by my grandmother from the age of 18 months. She meant the world to me and as a result of how close we were, I was the one who took care of her during the final stages of her life. I've long had a passion for caring for the elderly – it's such an amazing, gratifying experience.

Why I chose Helping Hands

I feel that I get all the support I need here at Helping Hands. I've worked with a number of companies and Helping hands is definitely the best one I've come across. People are at the heart of everything we do and I really feel that at all levels of the business.
