

Becky Arlow

Branch Manager - Hungerford

**Hello, my name is Becky,
Branch Manager for Helping Hands Hungerford.**

About me

Hello, I'm Becky Arlow and I am the Branch Manager at the new Hungerford branch which covers the Hungerford and Marlborough areas. My responsibilities are to ensure the day to day running of the branch. I am here to make sure all carers who come out to you are well trained and are the best people to provide an outstanding standard of care to you, our customers.

My experience and expertise

I have over 25 years' experience in the care sector. I started in care when I was 14 years old and have covered every different aspect of care within the industry. I have worked as a carer, senior carer, student nurse and then into management roles so have a clear understanding on what it takes to be a good carer.

I have worked with elderly care, learning disabilities, autistic adults, prison healthcare, hospital wards and have extensive experience working with people who are living with a form of dementia.

I have a Foundation degree in Health and Social Care and am looking forward to completing my learning journey by doing a Level 5 in Management and Leadership.

Why I chose Helping Hands

When I researched Helping Hands, I found very positive reviews from customers and carers who had worked for the company. I knew that I wanted to come and join their team. I really liked what the company stands for and feel like I could make an impact.
