

Claire Garside

Care Manager – Clevedon

Meet Claire, your Care Manager for Clevedon Branch

About me

“Hello I’m Claire. As the Care Manager for the Clevedon Branch, I am mainly responsible for ensuring that each of our carers have the support and training they need to deliver an outstanding service to the customers daily. Engaging with the customers is also a vital role for me as it shows them that we are passionate about the care we provide, allowing us to stand out as one of the leading providers of care in the country.”

My experience and expertise

Claire’s career in the care sector started when she was 17 years old. Her first role in the industry was as a support worker for several years, before moving into an activities co-ordinator role in a care setting. Following this, Claire then moved up to a deputy manager role in the learning disability sector.

Claire has had experience as a trainer in safeguarding and completed her health and social qualifications in Levels 2 and 3, before completing her Level 5 in 2018.

Why I chose Helping Hands

“The main reason for beginning my new journey with Helping hands was for its amazing family values, and the company’s dedication to delivering individually support to customers in their own homes.

“The support since joining Helping Hands has been fantastic and I am very proud to work alongside such a compassionate and dedicated team of people.”
