

## Miguel Camelo

Branch Manager - Bromsgrove

**Hello, my name is Miguel,  
Registered Branch Manager for Bromsgrove.**

### About me

I consider myself to be a nice and easy-going person, fascinated for the care industry and what it all entails. I am driven by my personal and professional goals. I like to impress and to be impressed. I am very competitive which gives me the motivation I need to do more and better all the time. I love to play percussion instruments and listen to music and I like family games and sports. I am a tech fanatic and impressed with how quickly it grows. I'm a problem-solver by nature, very calm and stressless regardless of what is happening around me. My immediate goal when I speak to a customer or colleague is to get their issue resolved as quickly and efficiently as possible.

I do love to have a good laugh and to tell a few jokes. Happiness at work is what we need.

## **My experience and expertise**

I started my adventure in the care sector in 2014 and I have since acquired experience in different roles such as carer, senior carer, supervisor, field-based supervisor, care coordinator, deputy manager, and registered manager, which is my current role at Helping Hands.

## **Why I chose Helping Hands**

Helping Hands is a big company, very organised and with a strong structure. I have been through a rigorous process to get here and that showed me they do care about who they employ to look after their customers. Helping Hands is the only full service home care provider to be endorsed as a Centre of Excellence, and that says it all!
