

Sarah Cheetham

Branch Manager - Liverpool

**Hello, my name is Sarah,
Branch Manager for Liverpool.**

About me

Hello, I'm Sarah the branch manager at Liverpool. I am so proud of the team that I have here at Liverpool. They provide a second to none service. I am a firm believer that everyone should have the choice to stay at home and receive care with their family and friends around them. I have the drive to ensure that all of my customers are receiving the best possible service with the highest calibre of carer.

My experience and expertise

I have worked within health and social care for six years. I have lots of experience within the elderly sector, supporting customers with dementia and Alzheimer's in particular, and also those receiving palliative care.

I have achieved my Level 5 NVQ in Leadership and Management and Level 3 in Health and Social Care. I have progressed within the care industry starting out as a carer, and working my way up to management level.

As a carer, I loved my job. It never felt like work to me. To me, being a carer came naturally. I am so passionate about providing care that makes a real difference to someone's life. I believe that all carers are like 'extended family', who look after peoples' loved ones, and it takes someone very special to trust with the people that we love so dearly.

Why I chose Helping Hands

Helping Hands' passion to provide outstanding care matches my own. Once I had met the team and become familiar with the company ethics, it was a no brainer.
